

Konštruktér/ Design Engineer

Uchádzača overíme na vašu žiadosť

Očakávaná mzda: **1 000 €**

Cena: **1 200 € bez DPH**

Preferovaná pracovná pozícia

Konštruktér

Preferovaná lokalita

Slovenská republika

Jazyky

Ukrajinsky - Expert (C2)

Rusky - Pokročilý (C1)

Anglicky - Stredne pokročilý (B2)

Slovensky - Začiatočník (A2)

Zručnosti

AutoCAD - Pokročilý, Autodesk Inventor - Pokročilý, Catia - Pokročilý, Solid Works - Pokročilý, Microsoft Office - Pokročilý

Pracovné skúsenosti / Work experiences

04/2019 - present

Engineer / Designer

Zameranie spoločnosti:

Sale of cars and light motor vehicle

- » designing furniture made of metal, solid wood, chipboard (cabinets, chests of drawers, sofas, armchairs, tables, chairs, beds) for offices, houses, hotels, retail equipment (reception, wall equipment, racks, waiting furniture and recreation) and interior elements
- » working in programs SolidWorks 2017, Autodesk Autocad 2017

04/2018 - 03/2019

Engineer / Designer

Zameranie spoločnosti:

Manufacture of other plastic products

- » designing of metal structures for electrical, fire-fighting and household purposes (switchboard equipment, fire cabinets, audits, revision doors, mounting boxes, mailboxes)
- » working in programs SolidWorks 2017, KOMPAS-3D V16

06/2017 - 06/2018

Engineer / Designer

Zameranie spoločnosti:

Manufacture of paints, varnishes and similar coatings, printing ink and mastics

- » designing of products from a tree from sheet metal (racks, kitchen equipment, bar counters, office furniture)
- » working in programs Autodesk AutoCAD 2017, Autodesk Inventor 2017, SolidWorks 2017

09/2005 - 06/2017

Technician / Engineer / Designer

Zameranie spoločnosti:

Aeronautical design office

Technician (09/2005 - 2007)

- » initial data collection
- » practice on the production (participation in production of technical process of aggregate assembling, in designing of slipways of power wing kit)
- » participation in the projects of working out of the tail unit, wing and center wing section of the aircraft

Engineer / Designer of the third category (02/2007 - 11/2011)

- » working out of documentation for tail unit, wing and center wing section of the aircraft
- » working out of the structures of transverse and longitudinal power kit of the wing and tail unit
- » preparation of technical documentation, schemes, drawings in the program AutoCad
- » designing of details, units and assemblies in 3D programs (SolidWorks, atia V5, CADD5 5)

Engineer / Designer of the second category (11/2011 - 06/2017)

- » working out of documentation for seats of cockpit and passenger cabin, rescue and emergency equipment of the aircraft
- » preparing technical documentation, schemes, drawings in the program AutoCad
- » designing of details, units and assemblies in 3D programs (SolidWorks, atia V5, NX);
- » being responsible for modernization of having details and elements
- » compiling of defect sheets, acts for additional works and work on them
- » creating solution of production requests

Vzdelanie / Education

2001 - 2007

Technology of production of airplane and helicopters / Engineer - Mechanic
