

Operative buyer - Logistics - Recruitment specialist - Warehouse

Supervisor

Experienced Procurement, Logistics and Business Development professional with an analytical approach and a focus on efficiency. Experience in HR and digital marketing has given him a broader perspective that complements both technical and business skills. He has implemented modern tools and technologies in his work, including the use of programming basics (e.g. Python) to streamline processes. He enjoys connecting technical solutions with practical business needs and excels in communication, creativity and the ability to collaborate across teams. He sees new challenges as an opportunity to grow and achieve real results.
