

Sales Representative, Sales Manager, Sales-Technical

Representative, Seller of construction chemicals

Candidate has about 30 years experiences in area sales representative companies in area food industry, finance products and building industry. During career he gained acquisition experience in direct sales in retail, work with strings and sale building materials for the SME segment. When building a customer base, he was guided by the need to visit a potential customer and less preferred acquisition calls, as the visit to the stores enabled him to capture information that could be key to offering a solution or goods to clients from the northern districts of Kysúc and Orava to the southern districts of the Banská Bystrica region.

We can characterize the candidate as a communicative person, flexible and ready to look for new opportunities. The candidate masters a wide range of business skills that have been continuously developed by previous employers throughout their careers.
